## AeroMarine Products Silicone Thickener

AeroMarine Products Silicone Thickener can be added to any AeroMarine Products 10:1 tin based (condensation cure) silicone rubber RTV to create a thixotropic, brushable material. **Do not use with simple 1:1 silicones.** This special additive must be added at the time of mix, to the white silicone base (Part A) prior to adding the catalyst.

To use, add about 1% Thickener to the part A (white silicone base), then add the catalyst. Use more or less to make the final product the desired viscosity. Do not add more than 10%, as more than 10% will degrade the quality of the finished mold.

## FOR INDUSTRIAL OR PROFESSIONAL USE ONLY

AeroMarine Products (seller) makes no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining whether the seller's product is fit for a particular purpose and suitable for a user's particular method of application. Many factors can affect the use and performance of seller's product. Given the variety of factors that can affect the use and performance of seller's product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the seller's product to determine whether it is fit for a particular purpose and is suitable for the user's method of application.

If the seller's product is proven to be defective, THE EXCLUSIVE REMEDY, AT SELLER'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OF OR TO REPAIR OR REPLACE THE DEFECTIVE PRODUCT. Seller shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including, but not limited to, contract, negligence, warranty, or strict liability.
