Urethane Colorants

Add as needed to Part B before combining Part A and Part B together. Do not use more than the total mix of urethane or cure inhibition / oozing may occur.

User determines amount to add; If this is your first time adding color tint or pigment to our urethane system, you may want to test the color effect by adding a spoonful to a small amount of urethane material and observe the outcome. It may take a few test castings to attain the desired color outcome. Please keep in mind that with a white base the urethane colorants can be lighter than expected.

Urethanes are moisture sensitive. Do not use paper, wax or wood mixing tools. Always re-cap container immediately.

ALWAYS WEAR PROPER SAFETY EQUIPMENT.

AeroMarine Products (seller) make no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining whether the seller's product is fit for a particular purpose and suitable for a user's particular method of application. Many factors can affect the use and performance of seller's product. Given the variety of factors that can affect the use and performance of seller's product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the seller's product to determine whether it is fit for a particular purpose and is suitable for the user's method of application.

If the seller's product is proven to be defective, THE EXCLUSIVE REMEDY, AT SELLER'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OF OR TO REPAIR OR REPLACE THE DEFECTIVE PRODUCT. Seller shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including, but not limited to, contract, negligence, warranty, or strict liability.
