AEROMARINE PRODUCTS ANTI-SKID ADDITIVE FOR EPOXY RESIN

AeroMarine Products Anti-Skid Additive for epoxy resin keeps your flooring surface from a dangerously slippery, glass like surface. Our anti-skid powder is micronized polypropylene. When mixed with our epoxy resin, it makes your concrete or wood flooring or decking much less slippery. It appears white, but cures to a clear finish. A little bit of our Anti-Skid additive goes a long way.
