## Metering Pump Instructions

The metering pumps included with AeroMarine epoxies are designed to dispense equal volumes of liquid. When using with AeroMarine Products 300/21 epoxy, you must pump two strokes of resin for every one pump of hardener. Each stroke dispenses approximately one ounce of liquid. We recommend pumping the product into cups to ensure you are getting the appropriate amounts.

The pumps need to be primed before the first use. If they will be stored for a long time, remove the pumps from the containers, clean them with acetone and prime them before using again.

**Do NOT leave the pumps in the containers longer than 30 days.**

**For industrial or professional use only**

AeroMarine Products (seller) make no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining whether the seller's product is fit for a particular purpose and suitable for a user's particular method of application. Many factors can affect the use and performance of seller's product. Given the variety of factors that can affect the use and performance of seller's product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the seller's product to determine whether it is fit for a particular purpose and is suitable for the user's method of application. If the seller's product is proven to be defective, THE EXCLUSIVE REMEDY, AT SELLER'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OF OR TO REPAIR OR REPLACE THE DEFECTIVE PRODUCT. Seller shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including, but not limited to, contract, negligence, warranty, or strict liability.
