## Luer Lock Manual Syringes

AeroMarine Luer Lock Manual Syringes are complete units, clear, calibrated in ML(CC) and ready to use in non-medical applications. They are intended for dispensing any of our epoxies in non-sterile environments. They include syringe barrels plungers (push rods inside the barrel), pistons (black neoprene piece that is manually pushed to move the material forward), a polypropylene Luer Lock helical threaded Tip Cap, and a disposable tapered dispensing tip. There is a lubricant used in the barrel, (PDMS), Polydimethylsiloxane, a silicone. Syringes can be washed and dried prior to using with dish soap and hot water if you are worried about this affecting your project. The polypropylene Luer Lock helical threaded Tip Cap is intended for sealing the outlet of the manual syringe. The disposable tapered dispensing tips are intended for general use with epoxies.

AeroMarine Products (seller) make no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining whether the seller's product is fit for a particular purpose and suitable for a user's particular method of application. Many factors can affect the use and performance of seller's product. Given the variety of factors that can affect the use and performance of seller's product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the seller's product to determine whether it is fit for a particular purpose and is suitable for the user's method of application.

If the seller's product is proven to be defective, THE EXCLUSIVE REMEDY, AT SELLER'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OF OR TO REPAIR OR REPLACE THE DEFECTIVE PRODUCT. Seller shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including, but not limited to, contract, negligence, warranty, or strict liability.
